

# **WORKERS COMPENSATION** **PATIENTS**

In an effort to alleviate your pain, injury and/or disability your physician has prescribed physical therapy as part of your treatment plan. The responsibility to yourself, your employer, case manager, and adjuster is to schedule and attend your physical therapy as prescribed.

If the physician has taken you off work for your injury, scheduling 3-4 hours per week during the time you would be working should not be a problem.

Our policy is to document ALL cancelled and unattended appointments in your permanent medical record.

## **This can affect your W/C claim**

At Premier our pledge is to provide you with a professional, knowledgeable, caring staff and environment. We expect your 100% commitment in your treatment plan.

I have read and understand this policy.
